ANNEXURE - 1

STATEMENT SHOWING THE DRAFT ARTICLES OF CHARGES FRAMED AGAINST SRI B. APPALA NAIDU, EXECUTIVE ENGINEER, PIU DIVISION, SRIKAKULAM

CHARGE:

That Sri B. Appala Naidu, Executive Engineer, PIU Division, Srikakulam District has committed certain irregularities in execution of work "Road from Jarjangi-Sowdam road at KM 1/0 to Pattupuram" in Srikakulam district., as he has 1) not obtained mix design for CC used in pavement, 2) Allowed and made payment for the substandard quality of concrete (Rejected value – Rs. 10,25,824/-) in contravening the A.P.C.S. (Conduct) Rules, 1964.

BASIS:

The V&E Officials have verified the work "Road from Jarjangi-Sowdam road at Km 1/0 to Pattupuram" in Srikakulam district., taken up under PMGSY Phase-VII grant with an estimated cost of Rs. 202.47 Lakhs and made the following observations vide Vigilance Report No. 47 (1377/V&E/E2/2009), dt. 27.07.2011.

Observations and Findings of the V&E:

- Samples of OGPC are collected from road surface and tested for bitumen content and deficiency is observed in KM 2 (3.69%) & KM 3 (4.51%).
- Core samples were extracted from hardened concrete of payment, tested for comprehensive strength and results are as below.

Sl. No.	Location of sample	Grade of concrete	Strength attained in N/Sq. mm	Required strength in N/Sq. mm	Remarks
1	KM 0/665 – R/S.	M30	17.1	22.5	failed
2	KM 0/667, centre	M30	18.1	22.5	failed
3	KM 0/667 – L/S.	M30	22.9	22.5	satisfied
	Average	M30	19.32	25.5	failed
4	KM 2/949 – R/S.	M30	14.6	22.5	failed
5	KM 2/959 centre,	M30	25.0	22.05	satisfied
6	KM 2/953 – L/S.	M30	12.6	22.5	failed
	Average	M30	16.57	25.5	failed

- The average and individual strengths in respect of two samples failed to satisfy relevant strength of M30 grade concrete in both the reaches.
- An amount of Rs. 51,241/- is proposed to be recovered from the contractor towards deficit bitumen in OGPC KM 2 (3.69%), KM 3 (4.51%).
- The work was taken up under PMGSY grant and hence, the defect liability period is 5 years. Any defects noticed within the 5 years on the road work, the contractor has to attend for rectification immediately.
- CC road payment of 200 mm thick was executed with M30 grade concrete in stretches i.e., (i) from KM 0/600 to 798.70 for a length of 197.00m and (ii) from KM 2/908.60 to 3/008.60 for a length of 100m. Since the CC cores extracted from hardened concrete of CC pavement failed to attain the required comprehensive strengths for M30 grade concrete, the CC pavement from KM 0/600 to 0/798.7 and from KM 2/908.60 TO 3/008.60 to be rejected and re-laid at the cost of Contractor. The rejected value of the work is Rs. 10,25,824/-

- The field staff have not obtained any design mix for M30 grade cement concrete.
- Tests conducted for the relative density on earthen embankment and shoulders reveal that actual relative density is less than the required, needs further consolidation.

Therefore, Sri B. Appala Naidu, Executive Engineer, PIU Division, Srikakulam district has failed to discharge his legitimate duties properly and allowed and made payment for the substandard work. Thus his action is in violation of A.P.C.S. (Conduct) Rules, 1964.

Hence, the Charge.
